	Inside Dimensions	Outside Dimensions
<b>Height</b>	<b>4.00"</b>	<b>11.50"</b>
<b>Width</b>	<b>10.5"</b>	<b>14.70"</b>
<b>Depth</b>	<b>10.70"</b>	<b>20.02"</b>
<b>VDC</b>	<b>11-15 VDC</b>	<b>22-26 VDC</b>
<b>Amps</b>	<b>.5 to 10(12)</b>	<b>.5 to 5(24)</b>
<b>Airflow Requirements: 65CFM</b>		

### **Electrical**

Unit operates at 12 or 24 VDC. Peak power Consumption is dependent upon model and operating environment but typical power consumption at normal ambient temperatures (90F to 30F) is 50-80% of peak. Unit can be equipped with optional low voltage shutdown and when voltage is restored the unit automatically restarts.

### **Temperature Control**

Cooling and/or Heating is accomplished using high efficiency thermoelectric technology. The temperature control boards use a proportional control program to maintain minimal temperature variation inside the unit. Internal temperature is preset but custom temperature settings are available. Insulation is state of the art vacuum and PU panels that provide a barrier of maximum efficiency from external temperatures.

### **Design**

Products contain no CFC's nor harmful contaminants requiring only standard tools for installation. Unit is field serviceable with the field service guide. Mount location does not require non-restricted air movement to function properly. Unit can be configured to operate on 120/220 VAC with optional DC power conversion. OTE thermoelectric cooling/heating assemblies are designed specifically for these units. Our OTE engines are designed and manufactured to work day in and day out in the toughest conditions.

## **Product Overview**

- Unit is installable in a variety of configurations
- Functional in mobile, temporary or stationary environments
- Reliable, Robust and Low Maintenance Solid-State technology
- Snap locks for fast and consistent access to contents
- Padlock, Key Keypad or other electronic methods of locking for security of narcotics
- High tech insulation and thermoelectric proportional controlled methodology
- Manufactured in U.S.A.
